INTRODUCING THE POLA ROUND COLLECTION

HIGH POINT, N.C. (April, 2018) – LEVEL 4 DESIGNS introduces the Pola Round Collection, designed by LC Studio. This new design is an extension of the company’s successful Pola Collection.

Pola Round offers clean, simple lines with uncompromised comfort and a variety of design elements for both indoor and outdoor applications. The standard design incorporates a polypropylene shell upper with a variety of base options in both metal and wood. The shell is available in 6 colors with the option of an upholstered seat cushion or fully upholstered shell, in fabric or leather. The base options include a four leg metal base, aluminum swivel base (with & without casters), four-leg wood base and wood swivel base.

“We are excited about this new collection from our Italian design partner Crassevig S.r.l. as we continue our focus of introducing new designs that address the expanding interest in "residential looks" that are developed and engineered for the commercial market", stated Robert Price, President and owner of LEVEL 4 DESIGNS.

Pola Round is one of several new collections that will be introduced over the next several months.

ABOUT LEVEL 4 DESIGNS

LEVEL 4 DESIGNS is a North Carolina based company offering an extensive product line of seating and tables that incorporate an interesting mix of materials and design elements for the contract and hospitality markets. Over the last four years the company has also expanded their focus and capabilities to include custom made furniture that is manufactured to exact design specifications.
